Historical note

The Iowa Soybean Association (ISA) was founded in Des Moines, Iowa, in 1964 by a group of Iowa farmers who came together with a common goal – to increase the profitability of soybean production in the state. ISA is interested in the production, processing, marketing, and utilization of soybeans and soybean products. It promotes research into the uses of soybeans and encourages the expansion of domestic and overseas markets for soybean products. ISA helps farmers to expand profit opportunities with various policies and programs they develop. They also promote environmentally sensitive production using soybean check-off and other resources. The ISA serves about 6,000 members throughout the state.

Collection description

This collection (1945-1996) contains records which document the activities of the Iowa Soybean Association (ISA). The materials include the Association's constitution, annual meeting files, and correspondence. The collection also contains legislative materials, newspaper clippings, resolutions, and referenda regarding the production of soybeans. In addition, the records include reports, ISA Board meeting materials, and publications put out by the ISA. In addition, there are materials relating to the ISA's relationship with the Iowa Soybean Promotion Board.

For additional information regarding the ISA, please see the Iowa Soybean Publication Board (MS 58), which contains numerous documents from both organizations.

Organization

The collection is listed in chronological order.
